

CAQH Credentialing Web Reference

The Council for Affordable Quality Healthcare (CAQH) collects and stores credentialing data and verifies that medical providers have valid medical credentials. They also share the files with insurance companies. Medicare, Medi-Cal and many private health insurance companies use CAQH.

Why Visit CAQH?

Each physician must be credentialed in order for your department's clinic to share billing data with insurance companies, Medicare, or Medi-Cal.

When to visit CAQH?

Visit this site when you are ready to 1) create a log-in and 2) begin a multi-step credentialing process for your clinic's providers.
