

## Medicare Part D Billing

**Step 1. Look up TransactRX.** Local health departments can submit Medicare Part D billing via a contract company called TransactRX.com.

**Step 2. Schedule a free demonstration** by going to their website. Look for the button especially for Public Health Departments:

[www.transactrx.com/solutions/public-health-departments](http://www.transactrx.com/solutions/public-health-departments).

**Step 3. Inquire with your department's management about contracting guidelines** for your county. If your jurisdiction doesn't have an existing contract with Transact RX, you'll need to learn how to proceed.
