

Your Guide to Medical Codebooks

ICD10-CM code books

(formerly ICD9-CM) are published in **September** each year. They are available from many publishers in both printed and electronic versions. Make sure the version you select is current.

Note: The new, revised coding system, **ICD-10**, will be out on October 1, 2015.

CPT and HCPCS code books

are published in **September** and **December** each year. They are available from many publishers in both printed and electronic versions.

TIP: Make sure the version you select is current.

TIP: Search for any of the above code books online by typing the title into a search engine such as Google or visiting the AMA website at amastore.com.
